📁 PROFESSIONAL EXPERIENCE

- Assisted in designing, developing, and testing basic software applications using Python and Java.
- Worked on self-driven academic projects to understand the Software Development Life Cycle (SDLC).
- Developed frontend components using HTML, CSS, and JavaScript for responsive web interfaces.
- Practiced debugging, logical implementation, and problem-solving through hands-on coding tasks.
- Demonstrated strong learning ability, adaptability, and interest in emerging technologies.

🎓 EDUCATION

B.Tech

Dr. A.P.J. Abdul Kalam Technical University
2024 – 2024 | Greater Noida, Uttar Pradesh

Intermediate (Class XII)

P.N National Public School
2023 – 2024 | Fazilnagar

Secondary School (Class X)

P.N National Public School
2021 – 2022 | Gorakhpur

📜 CERTIFICATES

Python Bootcamp (100 Days of Code)

Udemy

Mini Python Projects

Udemy

Learn Core Python, NumPy and Pandas

Udemy

Frontend Web Development

📁 PROJECTS

Student Performance Analyser

Python-Based Data Analysis Application

11/2025 – Present

- Developed a Python-based application to analyze student performance data and identify strengths and weaknesses.
- Implemented data handling and analysis logic using Python to generate meaningful insights.
- Used Python Pandas, Streamlit, Numpy, Matplotlib
- Strengthened problem-solving, logical thinking, and practical programming skills through project implementation.

SKILLS

Programming Languages

- Python
- Java
- C
- C++
- JavaScript

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Responsive Web Design

Backend Development

- Node.js
- Express.js
- REST APIs
- JWT Authentication

Database

- MongoDB
- Mongoose

Data Science & Analytics

- Pandas
- NumPy
- Matplotlib
- Seaborn
- Data Analysis
- Data Visualization

Core Skills

- Full Stack Development
- Data Structures & Algorithms (Basic/Intermediate)
- Problem Solving
- Object Oriented Programming (OOP)
- API Integration

Tools & Technologies

- Git
- GitHub
- VS Code
- Streamlit
- Postman
- MongoDB Compass
- MongoDB Atlas

Personal Portfolio Website

Frontend Web Development Project

02/2025 – 03/2025

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and contact information.
- Implemented frontend features using HTML, CSS, and JavaScript with a clean and user-friendly layout.
- Improved frontend development skills, UI design understanding, and practical implementation of web technologies.

Expense Tracker Application

Python-Based Financial Tracking Tool

- Developed a Python-based expense tracker to record, categorize, and analyze daily expenses.
- Used Python Pandas, Matplotlib, Numpy
- Link : https://github.com/its-sky-2628/Expense_Tracker/blob/main/Expense-Tracker.py

Log File Analysis and Visualization Tool

Python-Based Log Data Analysis and Visualization System

- Developed a Python-based application to analyze system and application log files.
- Used Python, Pandas, Matplotlib

ExperienceHub – Community Based Social Sharing Platform

- Developed a full-stack social sharing platform where users can post experiences, stories, confessions, and category-based content.
- Implemented secure user authentication and authorization using JWT and Bcrypt.
- Built features such as profile management, profile photo upload, post creation, editing, deletion, likes, comments, and follow/unfollow system.
- Added category-based content filtering (Life, Shayari, Tech, Gaming, Travel, etc.) for personalized feed experience.
- Designed responsive and modern UI using Tailwind CSS and EJS templates.
- Integrated MongoDB database for storing users, posts, comments, followers, and profile information.

Personal Portfolio Website

Tech Stack:- React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JavaScript

- Developed a full-stack personal portfolio website to showcase projects, skills, certifications, and professional achievements.
- Built responsive and modern user interfaces using React.js and Tailwind CSS.
- Implemented backend services using Node.js and Express.js for handling contact form submissions and dynamic content.

LANGUAGES

English

Hindi

- Integrated MongoDB database for storing user interactions and portfolio data.
- Added resume download, project showcase, certification section, and social media integration.
- Designed a mobile-friendly and optimized user experience across different devices.
